

# Your flair for design, our flair for business

## What is the Dulux Design Service?

The Dulux Design Service is a new nationwide interior design service. The business is underpinned by the design expertise, industry knowledge, and marketing skills of Dulux, the biggest name in the industry. We're already running a successful service selected areas of the UK; now we're expanding across the country.

## Where do you fit in?

You'd be your own boss, working in your part of the country, serving your own customers, but working exclusively under the Dulux Design Service banner. Like all our other designers, you'd be an independent franchisee. Those franchisees are much like you. They're natural sales people and talented designers with an infectious enthusiasm that inspires everyone around them - their customers, their employees, and independent trades people.

They're good at what they do because they're open to new ideas and changing trends. They're eager to learn from us and from their customers. They take the training and support we give them, add their own creative touch, and turn it into business success.

## You can do it because you can

Running your own business is no easy ride: you have to be persistent, you have to take the disappointments as well as the successes, you have to believe in yourself, and your family has to be 100% behind you. If that sums you up, we'll be 100% behind you too.

**The support starts right here.**
